

In the name of God

Curriculum Vitae (CV) *Dr. Abbas Assari Arani*

Personal Information:

First Name: Abbas

Family Name: Assari Arani

Date of Birth: March 21, 1958

Address: Jalal Ale-Ahmad Exp. Way, Faculty of Management and Economics, Tarbiat Modares University, Tehran, Iran, P.O. Box: 14115-111

URL: https://www.modares.ac.ir/en-pro/academic_staff/assari_a

Tel: +98(21)82883630

Fax: +98(21)82884674

E-mail: assari_a@modares.ac.ir

Educational Records:

Degree	Field of Study	City	University	Graduation date	Thesis Title
Diploma	Mathematics	Kashan	-	1976	-
BA	Economics	Shiraz	University of Shiraz	1984	-
MA	Development and Planning	Tehran	Tarbiat Modares University	1991	Estimation of Capital Formation in Iran
PhD	Development and Planning, Islamic Economics	Tehran	Tarbiat Modares University	2003	Applying Theoretical Indices of Economic Assessing and Navigating of Manufactures in Iranian Car Industry: with computing indices in a typical firm

Research Interests:

1. Health Economics
2. Development and planning
3. Iran's Economy
4. Energy Economics

Papers published in journals:

7. Deputy for Administration and Finance, Tarbiat Modares University, July 1992 to March 1993. Faculty member of Tarbiat Modares University, since 1991
8. General Director of Shahed and Veteran Students' Affairs of the University, 1989 – 2010
9. Main collaborator in launching and establishing the Economic Research Institute, Tarbiat Modares University, 1989

Membership in scientific & executive councils

1. Tarbiat Modares University Council
2. Representative of the Minister of Science, Research and Technology in the Supervisory Board of Islamic Organizations of the University
3. University Board of Tenders and Auctions
4. The selected committee for reviewing the promotion files of the faculty members, Faculty of Management and Economics, Tarbiat Modares University
5. Education and Research Council of the Faculty of Management and Economics
6. Supervision, Evaluation and Optimization Council of the Faculty of Management and Economics
7. Scientific Committee of the First International Conference on Islamic Banking and Finance
8. Scientific Committee of the Biennial Conference on Islamic Economics
9. Commission of University Special Cases
10. Cultural workgroup of university professors
11. University Educational Council
12. University Cultural Council
13. University's Shahed and Veteran Staff
14. University Islamization Committee
15. Research Council of the Social Security Organization of the Armed Forces
16. Policy-making and Planning Council of the General Directorate of Shahed and Veterans' Affairs, Ministry of Science, Research and Technology
17. Committee for Revising and Amending the By-Laws of the Educational Facilities of the Shahed and Veterans students, Ministry of Science, Research and Technology
18. Think Tank of the Shahed and Veterans students' Affairs, Martyrs' Department of Tehran Shahed
19. Planning Committee of the Office of the Advisor to the Minister of Science, Research and Technology on Veterans' Affairs
20. Founding board of Payame- Noor University, Aran and Bidgol

21. Islamic Economic Association of Iran
22. Iranian Health Economics Association

Supervising MA theses

1. The effect of carbon pollutants on health and economic well-being in Iran, *Arefeh Gholami*
2. Investigating the effects of investment in renewable energy on long-term economic growth in Iran (a dynamic computable general equilibrium model), *Sanaz Shahriari*
3. The effect of uncertainty in economic policies on energy intensity in Iran, *Faizollah Moradi*, October 2020
4. The Impact of International Sanctions on Iran's Petrochemical Industry with Emphasis on Foreign Exports and Foreign Investment, *Fatemeh Bahadoran*, June 2020
5. The effect of climate on energy demand in the residential, commercial and public sectors in Iran, *Fereshteh Baghban*, February 2020
6. Afghanistan's membership in the "1997 UN Convention on the Non-Shipping of International Waterways" and its role in the management of Afghanistan's transboundary waters (case study: Amu Darya), *Jalil Karimi*, February 2020
7. Investigating the effects of the oil sector on the social structure of capital accumulation in Iran (post-war period), *Muslim Zamani*, July 2019.
8. A Study of Common Financing Structures from the Perspective of their Adaptation to Iran's economy: A Case Study of Wind Power Plants, *Atieh Pourfarzad*, March 2018
9. The effect of stock market growth and the use of renewable energy on carbon dioxide emissions in selected sample of developing and developed countries, *Fatemeh Roghani*, March 2018
10. Comparison of Guaranteed Electricity Purchasing Policies and the Renewable Energy Standard Basket with Emphasis on Policy Review and Economic Openness, *Aria Mirshakari*, September 2017
11. Analysis of how to develop refueling services for ships in Chabahar port, *Hossein Hazrati*, September 2017
12. Comparative analysis of selected OPEC and OECD countries in terms of knowledge-based economy indicators, *Amir Mohammadi*, January 2017
13. Investigating the Relationship between Technology Progress and Energy Consumption (Analytical View), *Omid Khalili*, 2016
14. Factors affecting the deviation of the real exchange rate from the equilibrium rate based on purchasing power parity hypothesis in Iran, *Sahar Tahmasebi*, 2015.
15. Rents of natural resources and efficiency of government economic policies in two societies with poor and moderate majority, *Amir Abbas Emami Korabasloo*, 2015.
16. Measuring Green Productivity in Iranian Thermal Power Plants: Malmquist -Leuenberger productivity Index, *Sara Rahimi*, 2015
17. Interactions between government investment in the energy sector and the growth of major economic sectors in Iran, *Razieh Mohammadi Saber*, 2015
18. The effect of oil price fluctuations on investment in Iran's oil industry, *Melika Mohammadpour Lapahni*, 2015
19. Comparison of Capability of Risk and Bankruptcy Prediction Models in Selected Industries Listed in Tehran Stock Exchange, *Kimia Mohabeli*, 2015
20. Feasibility study of forming a market for surface water withdrawal permit (Case study of Qomroud river, Delijan city), *Farkhondeh Hashemi*, February 2015
21. Investigation of the position of underground mines in the structure of the national economy with an interconnection approach (Case study of Iran and China), *Bahram Nazari*, February 2015

22. Economic evaluation of the use of wind energy to provide lighting on the country's roads (Case study: Qazvin-Rasht free parking lots), *Aida Moslemi*, January 2015
23. Iran's role in the GTL products' market: a game theory approach, *Ashraf Ahmadi Kalhori*, February 2014
24. Confrontation of energy demand in OPEC oil with the Gas Exporting Countries Forum (GECF), *Mina Kiani*, December 2012.
25. Determining the willingness to pay for carbon tax in the transportation sector using the conditional valuation method (Case study of Tehran), *Zahra Abdolhosseini*, September 2013
26. Investigating the effect of government revenue generation method on the formation of government institutions with emphasis on government (during 1906-2006), *Nasrin Zamani*, July 2013.
27. Economic evaluation of construction of waste incineration plant in Iran, *Narjes Dadi*, July 2012.
28. Cost-benefit analysis of the application of Article 19 of the National Building Codes in Iran, *Mojgan Taghavi*, March 2012
29. The role of virtual organizations in increasing productivity and industrial development in Iran, *Elnaz Roshan*, February 2012
30. Determining the inflation determinants in the Iranian economy (with emphasis on non-monetary factors) (1979-2009), *Ahmad Rasouli*, February 2012
31. Prioritization of investment in the energy sector according to the optimization of the energy portfolio, *Mohammad Karimi*, February 2012
32. Identifying factors affecting the development of small and medium enterprises in developing countries and examining the status of these factors in the Iranian economy, *Abdullah Mohammad Alipour*, September 2011
33. Investigating the Effect of Investment in Information and Communication Technology (ICT) on Electricity Consumption in Selected Countries, *Masoumeh Heshmatpour*, July 2011
34. Investigating the existence of a price bubble in the housing market of major Iranian cities, *Moslem Aghayari Hir*, June 2011
35. Investigating and analyzing the effect of targeted energy subsidies on household electricity consumption in Tehran, and providing appropriate solutions, *Mehdi Ranaei*, March 2011
36. Assessing the status and stability of the energy sector in Iran (application of fuzzy logic), *Zahra Keshavarzi*, January 2011
37. Abundance of Natural Resources, Human Capital and Economic Growth (Case Study of Selected OPEC Countries), *Mohammad Rezaei*, December 2010
38. The effect of changes in social security premium rates on the cost of production and employment in the ceramic tile industry, *Athena Hashami*, September 2009.
39. The Impact of Informal Economy on Income Distribution in Iran, *Rameh Rezazadeh Mehrjoo*, May 2009
40. The effect of oil shocks on the current account of the balance of payments (Case study of OPEC member countries), *Meysam Rasouli Mir*, March 2009
41. Investigating the Impact of Monetary and Fiscal Policies and Income Distribution in Iran, *Saeed Shafiei*, March 2009
42. Investigating the effect of financial development on poverty and inequality: a case study of OPEC with emphasis on Iran, *Majid Aghaei Khondabi*, June 2008

Supervising PhD dissertations:

1. Systematic analysis of sustainable development in Iran with components of health, environment and economy, *Vahid Mohammad Taghvaei*
2. Providing a map of social (economic, environmental, political, cultural and individual) determinants of health in Iran with utilization of content analysis, fuzzy cognitive map and scenario analysis, *Nafiseh Salehnia*
3. Estimation of time preference rate in health in Iran and its trend in selected countries, *Razieh Mohammadi Saber*
4. The effect of providing guaranteed renewable insurance contracts in the health insurance market on the welfare of health insurance applicants, *Farzaneh Ghaemi*.
5. Statistical value of life: Consumption and health dynamics in Iran, *Nima Mohammadnejad*, September 2020
6. Optimal economic motivation mechanism of classified medicine, *Hadi Faramarzi*
7. Induced demand in health care system, a case study of induced demand in breast cancer diagnosis measures, *Mohammad Akbari*
8. Assessing the factors affecting mental well-being in Iran with emphasis on assessing the situation of people in the suburbs of large cities, *Sepideh Kaveh*, July 2020
9. Estimating the effect of human capital components on labor productivity in the Iranian economy with emphasis on health capital using a micro and macro approach, *Aladdin Azoji*, July 2018
10. Determining the factors affecting the threshold of health loss in different income deciles (application of generalized models of Grossman health capital), *Ahmad Rasouli*
11. Modeling of health expenditure at the household level, *Soheila Savojipour*, July 2017
12. Identifying the structure and main components determining informal payments in the health sector, *Mohammad Mesgarpour Amiri*, March 2017
13. Evaluation of Health Transformation Plan in Iran (from the perspective of health policy, economic, budgetary and insurance), *Tohid Atashbar*, September 2017
14. Providing the model of treatment expenditure of different income classes in Iran and analyzing the subsidy policy on it, *Hesam Mardan Tabar*, February 2017
15. Evaluation of mechanisms for transferring the effects of monetary policy through the stock market in Iran, *Zarifa Jalili*, September 2016
16. Explaining the model of pharma chain economy in Iran, *Zahra Mirahsani*, November 2015
17. Risk management in oil markets using financial derivatives, with emphasis on option and swap contracts, *Mohammad Hadi Hajian*, February 2015
18. The effect of air pollution on public and private costs of public and private health, *Maryam Fattahi*, May 2014
19. Measuring the efficiency and design of the proposed model of supervision and control over Iran's commercial insurance sector, *Mohsen Riyazi*, February 2014
20. Households and catastrophic expenditure: components, dimensions and determinants, *Mehdi Yousefi*, October 2013
21. Identification and analysis of key sectors of the country's provinces with a new inter-sectoral approach, *Ali Azadi Nejad*, January 2012
22. Reforming the structure of electricity distribution companies to improve efficiency in Iran (with emphasis on Meta-frontier approach), *Mohammad Sokhanvar*, February 2012

Advising MA theses:

1. The effect of renewable energy consumption on social development in OECD countries, *Khojasteh Rahimi*
2. The effect of exchange rate changes on the stock market in countries with natural resource rents, *Mehdi Rezaei*

3. The effect of developing the “Absorption and accumulation of carbon dioxide” scheme on macroeconomic variables using the CGE method, *Delaram Mehrpour Shijani*
4. The effects of democracy and oil rents on corruption in selected countries, *Darya Jadidian*, September 2017
5. Confronting the sanctions on the energy sector in the Iranian economy, *Reza Alidoost Ahandani*
6. The role of renewable energy in rural energy supply in Afghanistan, *Ali Shiva*, March 2017
7. Study of the effects of Dutch disease on the health sector of Iran, *Amir Hossein Ghamari*, February 2019
8. Investigating the role of carbon tax on fossil fuel subsidies on the development of renewable energy in OECD selected countries, *Mohammad Reza Arefian*, February 2019
9. Investigation of the appropriate allocation model of natural gas in the country with the minimum cost approach for the applicant sectors, *Maziar Hosseinzadeh*, March 2018
10. Analysis of water consumption intensity in Iran's agricultural sector, *Farnoosh Torabi*, February 2018.
11. The effect of financial decentralization and government ideology on the size of the public sector, *Farooq Budaghi*, July 2017
12. Economic evaluation of desalination and water transfer project from the Caspian Sea to the southern shore of Alborz, *Behrouz Moradi*, September 2017
13. Analysis of the situation of the Social Security Organization based on articles related to the field of social security in development programs, *Faezeh Abed*, March 2016.
14. Prioritizing the Elimination of Sanctions in the Iranian Economy, *Farbod Melarmezani*, March 2016
15. Analysis of water sector in Iran's economy with input-output method, *Firoozeh Mohseni*, February 2016
16. The quality of democracy and military spending: Evidence from developing oil-exporting countries, *Mostafa Moradi Seifabad*, February 2016
17. The effect of Nano knowledge-based economy on economic growth in Asia-Pacific: a case study of members of the Asia Pacific Nanotechnology Forum, *Kambiz Baseri Salehi*, February 2016
18. Assessing the effects of climate change on the Iranian economy using the computable general equilibrium model (CGE), *Ehsan Taheri*, September 2015
19. A Study and Comparison of the Relationship between Renewable Energy Consumption and Economic Growth in Selected Sample of Developed and Developing (1990-2011), *Nahid Samimi Motlagh*, March 2015
20. A Study of the Implementation of the Law on Targeting Subsidies by Multi-Criteria Decision Making (MCDM), *Matin Ghasemi*, February 2015
21. Determinants the natural gas consumption intensity among the energy-intensive industries in Iran, *Fatemeh Abdi*, February 2015
22. Designing a Mathematical Model for Determining the Taxpayer Services Portfolio of the Iranian National Tax Administration, *Tahereh Askarizadeh*, February 2015
23. The effect of price-to-rent ratio and population density on food and non-food consumption in centers of the provinces (2006-2011), *Mohammad Zeinalzadeh*, February 2015
24. Investigation of the effect of information and communication technology (ICT) on energy consumption in Iran, *Samieh Mohammadzadeh*, October 2014
25. Estimation of rent-seeking index in Iranian economy with fuzzy logic approach, *Ali Mahdiloo*, February 2014
26. Economic comparison of electricity generation of waste incineration and fossil fuel power plants using cost-benefit analysis, *Saba Mohya Zanganeh*, February 2014

27. Investigating the Relationship between Energy Consumption and Value Added in Different Economic Sectors (Provincial Sector Approach), *Behnaz Afsharian*, September 2013
28. The effect of age distribution of active population on Iran's GDP, *Ardavan Raeisi*, March 2013
29. The role of government in the development of the oil sector and transition from the oil economy, *Amir Asgari*, February 2013
30. Investigating the effect of good governance on economic growth and human development in countries with abundant natural resources, *Seyed Mehdi Pourkazemi Mohammadi*, February 2012
31. Cost-Benefit Analysis of Wind Power Plants (Case of Iran), *Nina Imani*, January 2012
32. Measuring and Comparing Poverty Indicators by Random Dominance Method in Iranian Economy, *Mehdi Fani Mumtaz*, January 2012
33. Investigating the Impact of Social Capital and Health Expenditure on Economic Growth. (Case Study: Selected Countries of the Organization of the Islamic Conference), *Muslim Qajavand*, January 2012
34. The Impact of Ease Doing Business (EDB) and Foreign Direct Investment (FDI) on Economic Growth, *Mehdi Forghani-Moghaddam*, October 2011
35. The role of specialized banks on economic growth (case study of Iran), *Elahe Davoudabadi Farahani*, January 2011
36. Economic Analysis of Factors Affecting the Middle Class Population: An Intercountry Study, *Arash Mashhadi Farahani*, July 2010
37. Estimation of systematic risk by wavelet analysis at different time scales (Case study: Tehran Stock Exchange), *Roghayeh Turki Samaei*, June 2010
38. Estimation of Welfare Index in Iran with using Fuzzy Approach, *Arshak Masaeli*, September 2009
39. Estimation of Domestic Tourism Demand Function in Iran, *Arezoo Rasekhinejad*, April 2009
40. Plan and policy in Iran (The effect of policy on the performance of the first development plan 1989-1993), *Ali Jazandari*, December 2007
41. A Study of the Relationship between Economic Growth and Poverty and the Elasticity Approach to Poverty in Iran during 1984-2004, *Zarifeh Jalili*, November 2007
42. Study and measurement of efficiency of commercial banks in the provinces of the country using the DEA method (Case study of Bank Melli), *Beatrice Babaei*, March 2007

Advising PhD dissertations:

1. Modeling demand fluctuations and identifying systematic risk factors in medical tourism in Iran, *Saeed Amirian*
2. Investigating the Impact of Monetary Policy on the Health Sector Using the Dynamic Stochastic General Interaction Model (DSGE), *Hassan Tavaklian*
3. Identification and studying economic and social factors affecting the rate of cesarean section in Iran, *Ali Asghar Asadi*, September 2020
4. The effect of marginalization on the health of different age and sex groups in the country (study of selected cities), *Minoo Mohammadi Tirandazeh*
5. Designing the characteristics of crusade culture in large and medium companies (Case study: Aran and Bidgol industrial town), *Mohammad Mehtari Arani*, October 2019
6. Modeling the effect of addiction to drugs on social welfare with emphasis on health: A case study of Iran, *Alireza Abdi*, September 2019.
7. Modeling the effect of health on economic growth in an economy based on natural resources (with emphasis on the health situation in Iran), *Seyed Ali Nikzadian*, July 2019.

8. The effects of population aging on the positive attitude of people towards the environment and prioritization of economic policy in the field of health and environment, *Ali Barikani*
9. Modeling household expenditure on children: Structure and Determinants of Dynamics, *Mehdi Keramatfar*, February 2019.
10. The effect of natural disasters on the health sector in Iran, *Ghazal Shahpari*, July 2018
11. The status of chronic diseases in the health sector, analysis of risk factors and the role of insurance and its impact on the well-being of the family and the elderly, *Seyed Sadr al-Din Nouredini*
12. Health Expenditure, Poverty and the Household Expenditure Pattern in Iran, *Moslem Aghayari Hir*, March 2017
13. The effect of economic and social status of parents on children's health, *Mehdi Shahraki*, July 2016
14. Estimation of social discount rate for Iran's health sector, *Ramin Shirdel*, September 2015
15. Longevity, saving and pension system in Iran and selected countries, *Farzaneh Mohammadi Sefid Dashti*, May 2015
16. Evaluation of justice in the Iranian health system, *Aniseh Nikravan*, March 2015
17. The role of social institutions and governance in human development (intercountry comparative study), *Behrouz Maleki*, January 2014
18. Controlling adverse effects of Dutch disease on economic variables in Iran: an Application of the optimal control theory, *Omid Ali Adeli*, November 2013
19. Estimating the production function and measuring the efficiency of the health sector and measuring the impact of the sector on labor productivity, *Samira Mottaghi*, November 2013
20. The Effect of Government Expenditure in Sports on Economic Growth and Development in Iran, *Parviz Rostamzadeh*, September 2013
21. Determining the optimal food basket according to the analysis of subsidies, *Mohammad Amin Koohbar*, February 2013
22. Determining the economic and institutional factors affecting the export of services, *Khaled Ahmadzadeh*, September 2012
23. Study of economic growth, inflation, exports and uncertainty in an oil-based developing economy, *Sajjad Faraji Dizaji*, August 2012
24. Sources of current account fluctuations in small open countries, *Reza Mohseni*, February 2012
25. Mergers and Structure-Conduct-Performance Approach, *Somayeh Azami*, February 2010
26. Investigating the effects of corruption on economic growth and income inequality, *Vahid Shaghaghi Shahri*, December 2009
27. Investigating the effects of subsidizing reforms on prices and income distribution in Iran using a computable general equilibrium model, *Khadijeh Yaghoubi Izad Mousa*

Courses Taught :

- ❖ Economic planning
- ❖ Economic development
- ❖ Microeconomics
- ❖ Macroeconomics
- ❖ Seminar in Economics
- ❖ Health planning and development
- ❖ Economic development and planning
- ❖ Mathematics for Economics
- ❖ General economics

Participation in training workshops:

- ✓ "Systematic approach", 2018
- ✓ "Technology nature in Humanities and Interdisciplinary Collaboration Mechanism", 2017
- ✓ "Future research for university administrators", 2015
- ✓ "Introduction to methodological schools", 2014
- ✓ "Performance Monitoring and Evaluation System", 2009
- ✓ "Examining students' mental health report", 2009
- ✓ "How to interact with incubates and science and technology parks", 2009
- ✓ "Studying mental health status, self-concept and some opinions of Shahed and veteran students in relation to their educational performance in comparison with other students", 2009
- ✓ "Entrepreneurship in the Shahed and veteran students' society", 2008
- ✓ "Crisis Management in emergencies", the Second International Congress of Health, 2004

Conferences and Meetings:

1. Scientific Secretary of the meeting "Promising Development Transformations in the post-Islamic Revolution", 2018
2. Scientific Secretary of the workshop panel "Resistive Economy, Insurance and Social Security", 2016
3. Executive and scientific cooperation in holding the first international conference "Islamic Banking and Financing", 2016
4. The Fourth Conference on "Knowledge Frontiers of Development Economics: Institutions, Productive Employment and Qualified Growth", 2016
5. Executive and scientific cooperation in the conference "Sixth Development Plan from the perspective of Islamic economics", 2016
6. Participation in more than 5 specialized sessions of Islamic economics, since 2000
7. Participation in 4 biennial conferences on Iranian economy, since 2000
8. Participation in 9 biennial conferences on Islamic economics, since 1999
9. Executive and scientific cooperation in holding the "First Seminar on Defense of National Production", 1992
10. Executive and scientific cooperation in holding the "First Seminar on Administrative Transformation", 1991
11. Executive Secretary of the First Conference on "Economic Reconstruction of the Islamic Republic of Iran", 1989.

The received letters of appreciation:

The number of letters of appreciation exceeds than 23. These have been received in various research, educational, cultural and executive fields. These awards have also been granted at different organizational, ministerial and the national levels.
